211 South Main St, Orange CA 92868

MOLECULAR TESTING (Continued)

SINGLE GENE DISORDERS

Seq+Del/Dup	Seq	Del/Dup	Gene	Disorder
Endocrine Tumors				
			MEN1	Multiple Endocrine Neoplasia, Type 1 (MEN1)
			RET	Familial Medullary Thyroid Carcinoma, Multiple Endocrine Neoplasia Types 2A&2B (MEN2)
Other Hereditary Cancer				
			ATM	Ataxia telangiectasia
			BLM	Bloom syndrome
			FLCN	Birt-Hogg-Dube syndrome
			JAK2 V617F	JAK2-related myeloproliferative disorder
			RB1	Retinoblastoma
			NBN	Nijmegen Breakage syndrome
			NSD1	Sotos syndrome
			PTCH1	Nevoid Basal Cell Carcinoma syndrome (Gorlin syndrome)
			SBDS	Shwachman-Diamond syndrome
			WRN	Werner syndrome

Custom Panel (Please specify gene and testing type):

Gene: _____	Gene: _____	Gene: _____
Test: _____	Test: _____	Test: _____

If there is a panel that is not on our list, please fill out the genes that are to be tested and the test to be performed.

To request a complimentary specimen collection kit please contact us at (714) 288-3500 or visit us on the web at geneticscenter.com
